

Welcome to SensiPlay!

The Springfield JCC, in collaboration with Bay Path University's occupational therapy department, offers a unique sensory motor program in a renovated gym space in the Springfield Jewish Community Center.

Program Goals & Format

The goal of SensiPlay is for children to have fun interacting with sensory, gross motor and fine motor activities in a small group setting. Participants will spend half of the session in the gym-like space utilizing specialized equipment that provides movement (vestibular) and body awareness (proprioceptive) input. The other half of the session will be spent in a tabletop area where the children will complete projects and/or play games which focus on the other senses (touch, sight, smell, sound).

Instruction

Each session will be supervised by an experienced occupational therapist (OTR) and assisted by 4 Bay Path University OT students.

Children between the ages of 4 and 10 years with varying abilities and needs are welcome. Ask about our weekly after-school sessions as well as our new Sunday program.

We look forward to meeting you and getting to know your child(ren)!

Now accepting applications for the Fall 2019 SensiPlay program

Enrollment is limited so call today!
